

Empowering your loved one  
with a life of  
*purpose and joy.*

**Reunion Court**  
of Clear Lake

ASSISTED LIVING | MEMORY CARE

*The Place Where Seniors Thrive*

Making a difficult decision requires  
*clarity and compassion.*

It can be hard to watch the self-reliant parent you've always admired start to show signs that living at home has become difficult, even unsafe. We can help.

At Reunion Court of Clear Lake, your loved one will experience the comforts of home, combined with thoughtful amenities and high-quality assisted living and memory care from a compassionate, experienced staff. We don't just care for your loved one, we care about them throughout every step of their stay in our community. That's why we prioritize a vibrant lifestyle with personalized care to encourage health, independence and complete peace of mind.

Our purpose is clear: to enhance and inspire the body, mind and spirit of your loved one.

THE PLACE WHERE SENIORS THRIVE

## A community built on *connections.*

**Because life is enhanced by the connections we make,** you'll have access to our Touchtown-enabled technology, a user-friendly tool that will strengthen the bonds between you and your loved one. Now you'll be able to easily keep in touch with your mom or dad. Talk with them about their day and share familiar moments and conversations, no matter how near or far you may be. You can also connect with staff for regular updates. To learn more about how we keep you in touch, call us at 281-218-6765.

*Designed with*  
your loved one in mind.

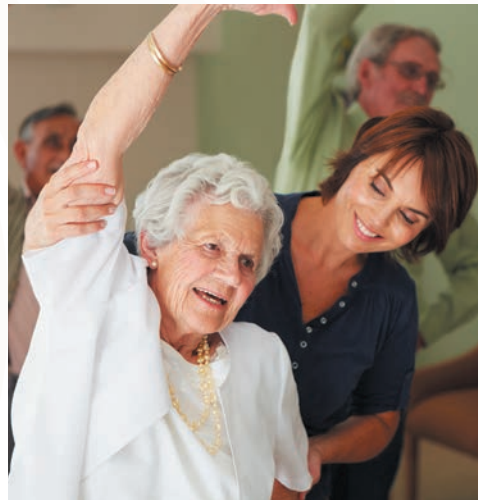

**The intimate size of our community** allows your loved one and family to develop closer relationships with team members, neighbors, and even the families of other residents — many of whom will become fast friends. Spacious common areas are perfect for gathering to play games or have friendly visits, while our homestyle menu options offer a family dinner feeling. All throughout our community, little touches like quality finishes and appliances in the residences bring the familiar comforts of home directly to your loved one.

# Dignified daily help when needed.

Going the extra mile to ensure a comfortable transition for your loved one into our community is second nature for our staff. To help build trust, we focus on providing tailored, nondisruptive assistance — including housekeeping, medication reminders, help with meals and getting ready for the day — that protects your loved one's dignity. Your family member will also enjoy a full and engaging calendar of daily activities, themed events and social outings, all of which make life in our community a lot more enjoyable and feel a little more like home.

## Body, Mind & Spirit in *Perfect Harmony*

Watching your family member struggle with Alzheimer's or other forms of dementia can be heartbreaking. To help, we build a community of family, friends, and expert care providers to ensure your loved one has an engaging and enriching life. Our specially trained memory care team gets to know your family member's life story, so we better understand how to encourage and connect with them on a daily basis. One example of our philosophy is our exclusive SYMPHONY OF LIFE® program. It helps stimulate mental acuity and physical well-being to support your loved one in living a life of purpose.

Together, with compassion and teamwork, we can help your loved one foster new relationships, stay connected with cherished family members and celebrate life's milestones.

SYMPHONY OF LIFE® is a registered trademark of 12 Oaks Senior Living.

Experience true  
*peace of mind.*
